

July 2018 Rostering Upgrades

Introduction

This document outlines the changes in the July 2018 Rostering Upgrades for *ThinkCentral*, *Holt McDougal Online™* (my.hrw.com), and *Ed: Your Friend in Learning®* that are now available.

What's New?

New Import Management User Experience

ThinkCentral, *Holt McDougal Online* (my.hrw.com), and *Ed: Your Friend in Learning* have upgraded the look and feel of the import management screen for Back to School. All of the existing functionality is still present. Visit our [Online Help](#) to learn more about navigating the upgraded user experience.

Support for OneRoster 1.1 API and CSV

ThinkCentral, *Holt McDougal Online* (my.hrw.com), and *Ed: Your Friend in Learning* now support OneRoster 1.1 API and CSV formats as defined by the IMS standard. We encourage you to visit our [Online Help](#), sign up for an HMH Back to School [Webinar](#), and, if you plan to use OneRoster for the 2018—2019 school year, [contact your Account Executive](#) to get the process started early.

If you are transitioning from SFF to OneRoster, be sure to visit our helpful project management [roadmap in Online Help](#) for a successful Back to School experience.
